5 IN 1 COMBO HEAT PRESS MACHINE

Rs. 12000/-

The machine shown is a 5-in-1 Digital Combo Heat Press Machine, which is a multi-functional sublimation and vinyl heat transfer system. It is used to transfer custom designs, logos, and photos onto various substrates using high-temperature heat application.

15*15 HEAT PRESS MACHINE

Rs. 12000/-

The 15 x 15 heavy duty Heat Press Machine is a versatile heat transfer solution designed for businesses that require professional-quality printing on multiple products. Equipped with a large 15 × 15 inch flat platen.

16*24 HEAVY DUTY

The 16x24 heavy-duty heat press is a commercial-grade machine, featuring a 16x24-inch platen, digital controls. A 16x24 inch (40x61 cm) Teflon-coated heating plate fits oversized shirts, hoodies, and banners in one press.

16*24 HEAVY DUTY SLIDER

A 16×24 heavy-duty slider heat press machine is a commercial-grade, large-format production tool designed for high-volume custom apparel and printing businesses. Featuring a massive 16×24-inch pressing area. The defining slider (or drawer) mechanism allows you to pull the lower platen out toward you, ensuring safe and accurate garment layout completely away from the heated upper platen.

MINI HEAT PRESS MACHINE

Rs. 3000/-

designed for precision printing on small garments and accessories. Whether you're applying company logos, DTF transfers, HTV vinyl, embroidered patches, or sublimation prints, this portable machine delivers professional-quality results with accurate temperature control and even heat distribution.
